

## The Volkswagen Crafter.

Bigger and better.

Images used in this material are for presentation purposes only. Photos may vary from actual unit.

**Space, comfort and  
efficiency come standard.**

# Designed for heavy-duty use.

Efficient common rail technology makes the Crafter's 2.0 TDI engine exceptionally economical.

# Rest assured, relaxation throughout the journey.

Generously dimensioned, extremely durable, yet comfortable too: the Crafter meets all your expectations of a premium shuttle.

**Crafter 35 L**

# Safety.

## Emergency stop signal

In case of an emergency stop from speeds as of 50 km/h, the brake lights start to flicker. If the vehicle comes to a standstill, the hazard warning lights are activated. These are switched off at a speed of 10 km/h when the journey is continued.

## Lashing eyes

The Crafter is equipped with up to twelve lashing eyes in the load compartment floor. Lashing straps can be used to safely secure your load to the lashing eyes which comply with DIN 75410-03 standards.

## Adaptive Electronic Stabilisation Programme

The electronics adapt automatically to the load status of the vehicle and take countermeasures in critical situations to prevent the vehicle breaking away.

The Electronic Stabilisation Programme cannot however overcome the limits set by physics.

## Anti-lock Braking System (ABS)

ABS prevents complete wheel lock and therefore significantly improves the vehicle's manoeuvrability when full braking is applied.

## Traction Control System (TCS)

For the high-torque engines, the traction control system offers more comfort and safety, particularly when driving on slippery roads or surfaces with differing degrees of grip. The traction control system facilitates smooth starting and acceleration over the entire engine speed range without wheelspin or fishtailing.

## Electronic differential lock (EDL)

This ensures a smooth start when driving off on surfaces with differing degrees of grip. Should a wheel start to spin, the electronic differential lock brakes the specific wheel and directs power to the wheel with better traction.

# Highlight Specifications

## Crafter 35 M Standard Roof

2.0 TDI 120 kW (163 Ps) 6-Speed MT

16" Steel Wheels  
Medium Wheelbase at 3,665 mm  
75L fuel tank  
Power Sliding Door with Power Latching, right  
Halogen Headlights  
Separate Daytime Running Lights  
Driver's Side Airbag  
Power Side Mirrors, Heated, Convex, w/ Turn Signal  
Sliding Window (Front Left Passenger Compartment)  
Power Steering (adjustable steering wheel)  
Leatherette Seats  
Comfort Side Trim Panels w/ Fabric Inserts  
Ashtrays and window frame trim  
Arm Rest for Left and Right Front Seats  
Climatic Air-Conditioning w/ 2<sup>nd</sup> Evaporator  
Electronic Stabilisation Program w/ Brake Assist  
Anti-lock Braking System  
Radio Preparation  
Cab Doors with Power Windows  
Roof Interior Trim as Moulded Headliner  
2-2-3 Seat Configuration in 2<sup>nd</sup> to 4<sup>th</sup> row of seats  
Euro 5 Emissions Standard

**SRP: PhP 2,500,000**

## Crafter 35 L High Roof

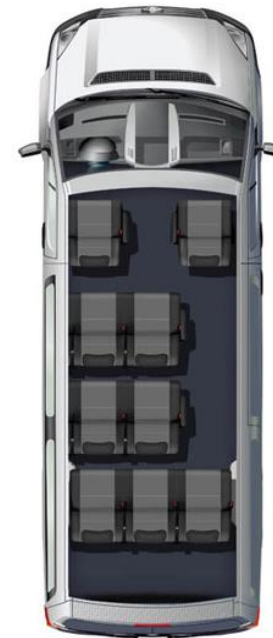

2.0 TDI 120 kW (163 Ps) 6-Speed MT

High Roof  
Long Wheelbase at 4,325 mm (+660 mm)  
100L Fuel Tank (+25 L)
