

The Touran

Das Auto.

Looks good day in day out. You will discover your everyday routine anew with the Touran. It combines sheer driving enjoyment with clever functionality, and the flexible seating system can make room for seven people or a full load of sports gear. The many equipment features for your comfort and safety make the Touran your companion each and everyday, and its distinct appearance makes a lasting impression.

Exterior. The Touran is an extraordinary vehicle, combining style and luxury with the ultimate in practicality and spaciousness. With its dynamic lines and distinct look, the Touran ensures every journey is an exciting experience.

Interior. The Touran's passenger compartment offers an exceptional combination of space, comfort, flexibility and luxury. With numerous seating options and an excellent level of finish, you couldn't ask for a more versatile and quality interior.

Comfort. Not only is the Touran unbelievably spacious, it's also exceptionally comfortable, ensuring every journey is an enjoyable, fulfilling and safe experience, rather than simply a trip from A to B.

Come to life.

Performance. The Touran really comes to life when you start the engine. With the latest drive technologies, the Touran delivers the ultimate in pulling power, performance and energy efficiency, which means you can look forward to an exciting drive that's as frugal as it's fun.

2.0 TDI Engine. The Touran's turbo direct injection diesel engine combines high pulling power with low fuel consumption and emission levels. This provides the Touran 110 Ps of power and 280 Nm of torque starting from just 1,750 rpm.

6-Speed DSG. Combining the convenience of an automatic and the fuel-efficiency of a manual, the DSG gearbox gives you more power with every gear. Volkswagen's DSG transmissions are renowned the world over for their smooth shifting and well-spaced gear ratios.

Focus on what's important.

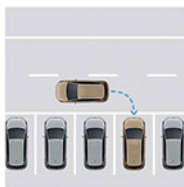

Safety. The Touran is nothing short of miraculous when it comes to space, but in terms of safety there is no room for compromise. Equipped with the latest intelligent safety features, it provides maximum protection for every occupant, enabling you to drive safely and at ease, and focus purely on the driving experience.

Proactive Occupant Protection System. In the case of a potential accident, seatbelts will automatically tighten and windows will automatically close to assure maximum functionality of the airbag system. Front, side and curtain airbags are there to protect the passengers wherever the impact may be.

Electronic Stabilisation Program (ESP) with Anti-Slip Regulation (ASR) and Electronic Differential Lock (EDL). These systems detect critical driving conditions, such as a risk of skidding, wheel spin or over/under steering, and take actions to keep the vehicle on course each and every time.

Park Distance Control. Rear parking sensors are ultrasonic, and have both an audible and visual display in the audio system when activated. The audible warning's volume can even be adjusted to ensure safe and comfortable usage.

Ensured visibility. Automatic headlight activation turns your lights on at dark areas such as tunnels making sure you see clearly and are seen as well by other drivers. Similarly, the rain sensor automatically regulates the front wiper speed according to the intensity of the rain improving visibility, comfort and enhancing safety.

Seat safety. All seats have 3-point seatbelts and headrests to ensure comfort and safety of all passengers. 2nd row seats also have ISOFIX mounts offering optimum safety for young passengers.
